PROGRAM DESCRIPTION

This 3 hour program provides a concise and comprehensive review of the three technologies that will enable the next phase of optical coherence tomography development in retinal disease. The focus is on the powerful clinical potential of swept source OCT, en face OCT and OCT angiography. These technologies will play an increasingly important role in new strategies for retinal pharmacotherapy.

SCHEDULE

5:00 - 6:00 PM  Registration and Dinner Buffet

6:00 PM  Welcome and Introduction Dr. Puliafito

6:05 PM  An Introduction to Swept Source OCT, En Face OCT and OCT Angiography: How These Technologies will Enable the Future of Ophthalmic OCT Dr. Puliafito

6:30 PM  Clinical Applications of En Face OCT Dr. Rosenfeld

7:00 PM  Basics of OCT Angiography Dr. Wang

7:20 PM  Applications of OCT Angiography in Diabetic Retinopathy and Retinal Vein Occlusion Dr. Kashani

7:50 PM  Applications of OCT Angiography in Management of Choroidal Neovascularization Dr. Waheed

8:20 PM  Panel Discussion and Questions, Faculty

9:00 PM  Adjourn

Frontiers of Optical Coherence Tomography (OCT):

A Concise and Comprehensive Review of

• Swept Source (SS) OCT
• En Face OCT
• OCT Angiography

Friday

May 1, 2015

5 PM – 9PM

Hyatt Regency Hotel
650 15th Street
Denver, Colorado

Program Director:
Carmen A. Puliafito, MD, MBA

Frontiers of Optical Coherence Tomography (OCT)

May 1, 2015

Hyatt Regency Denver
650 15th Street
Denver, CO 80202

USC Eye Institute
Keck School of Medicine of USC
REGISTRATION

Frontiers of Optical Coherence Tomography (OCT): May 1, 2015

Tuition: Registration is complimentary. Space is limited. Registration will be limited to the first 100 enrollees. Pre-registration is required. This course is not affiliated with ARVO.

Location: Hyatt Regency Denver, 650 15th Street, Denver, CO 80202 Capitol on the 4th Level

Parking: The hotel has limited on site, underground parking.

Self-Parking
3-5 Hours $20.00
5-24 Hours & Overnight $29.00

Valet Parking
4-8 Hours $27.00

Register:
Online: oct.usc.edu
Email: usccme@usc.edu
Phone: 323-442-2555
Fax: 1-888-665-8650
Mail: 1540 Alcazar Street, CHP 223, Los Angeles, CA 90033

* Registration confirmation and event reminder will be emailed.

EDUCATIONAL OBJECTIVES
Upon completion of the program, participants will:
1. Understand the physics and applications of Swept Source OCT in ophthalmology.
2. Identify the principles and current indications for en face OCT.
3. The use of OCT angiography in management of choroid and retinal vascular disease.

TARGET AUDIENCE
1. Ophthalmologists who wish to obtain a solid foundation in both basic and advanced OCT clinical techniques. The emphasis will be on use of OCT as a practical clinical decision-making tool.
2. Vision scientists and engineers who wish to learn about the most fundamental OCT research and technology, with an emphasis on OCT angiography.

ACCREDITATION STATEMENT
The Keck School of Medicine of the University of Southern California is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION
The Keck School of Medicine of the University of Southern California designates this live activity for a maximum of 3 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PROGRAM DIRECTOR
Carmen A. Puliafito, MD, MBA
Dean of the Keck School of Medicine of USC
May S. and John Hooval Dean's Chair in Medicine
Professor of Ophthalmology and Health Management

FACULTY
Philip J. Rosenfeld, MD, PhD
Professor of Ophthalmology, Bascom Palmer Eye Institute, University of Miami Miller School of Medicine

Amir Kashani, MD, PhD
Assistant Professor of Ophthalmology, USC Eye Institute, Keck School of Medicine of USC

Ruikang "Ricky" Wang, PhD
Professor of Biomedical Engineering and Ophthalmology
University of Washington

Nadia Waheed, MD
Assistant Professor of Ophthalmology, New England Eye Center at Tufts University School of Medicine
