Graduate Student Seminar Course:
Pathology 575 – Frontiers of Pathology

Day / Time: Thursday, 12:00 – 1:30 pm
Location: McKibben (MCH) Lecture Hall, Room 156
1333 San Pablo Street, Los Angeles CA 90033

January 14, 2010
Student Orientation

January 21, 2010
Extracellular matrix and tissue architecture regulate epigenetics of tissue specificity and breast cancer
Mina Bissell, Ph.D.
Lawrence Berkeley National Laboratory

January 28, 2010
Roles of the chaperones in the ER – Mitochondrion cross-talk
Tsung-Ping Su, Ph.D.
National Institute on Drug Abuse, NIH

For more information, please e-mail Rebecca Handan at handan@usc.edu.

Refreshments will be provided. Seminar is open to faculty, staff & students.

Sponsored by:
Southern California Research Center for ALPD and Cirrhosis
Department of Pathology of USC
Graduate Student Seminar Course:
Pathology 575 – Frontiers of Pathology

Day / Time: Thursday, 12:00 – 1:30 pm
Location: McKibben (MCH) Lecture Hall, Room 156
1333 San Pablo Street, Los Angeles CA 90033

February 4, 2010
Stem cells and cancer: Two faces of self renewal
Michael F. Clarke, M.D.
Stanford University

February 11, 2010
Niche-mediated regulation of hematopoietic stem cells in the adult bone marrow
Gregor Adams, Ph.D.
University of Southern California, Keck School of Medicine

February 18, 2010
Epigenetic regulation of neural cell fate
Yi Sun, Ph.D.
University of California, Los Angeles

February 25, 2010
Regulation of stem cell fate
Helen M. Blau, Ph.D.
Stanford University

For more information, please e-mail Rebecca Handan at handan@usc.edu.

Refreshments will be provided. | Seminar is open to faculty, staff & students.

Sponsored by:
Southern California Research Center for ALPD and Cirrhosis / Dept of Pathology
Keck School of Medicine
University of Southern California

Cellular Homeostasis Lecture Series

Graduate Student Seminar Course:
Pathology 575 – Frontiers of Pathology

Day / Time: Thursday, 12:00 – 1:30 pm
Location: McKibben (MCH) Lecture Hall, Room 156
1333 San Pablo Street, Los Angeles CA 90033

March 4, 2010
Role of MicroRNAs in diabetic kidney disease
Rama Natarajan, Ph.D.
Beckman Research Institute, City of Hope

March 11, 2010
Probing the potential of induced pluripotent stem cells
William E. Lowry, Ph.D.
University of California, Los Angeles

March 18, 2010
Spring Break, March 15 – 19, 2010

March 25, 2010
MicroRNA regulation of cell fate decisions
Deepak Srivastava, M.D.
University of California, San Francisco

For more information, please e-mail Rebecca Handan at handan@usc.edu.

Refreshments will be provided. Seminar is open to faculty, staff & students.

Sponsored by:
Southern California Research Center for ALPD and Cirrhosis

Graduate Student Seminar Course: Pathology 575 – Frontiers of Pathology

Day / Time: Thursday, 12:00 – 1:30 pm
Location: McKibben (MCH) Lecture Hall, Room 156
1333 San Pablo Street, Los Angeles CA 90033

April 1, 2010
Role of Pref-1 in adipogenesis and mesenchymal cell fate
Hei Sook Sul, Ph.D.
University of California, Berkeley

April 8, 2010
The Na+/dicarboxylate cotransporters from the SLC13 family
Ana M. Pajor, Ph.D.
University of California, San Diego

For more information, please e-mail Wendy Alvarez at wendyalv@usc.edu.

Refreshments will be provided. | Seminar is open to faculty, staff & students.
