USC Institute of Urology presents “Live” Surgery Symposium

A-to-Z Robotic Radical Cystectomy & intracorporeal diversion
4 surgeries in 1 day

September, 23-24 2016
Aresty Auditorium
USC Health Science Campus
Los Angeles, California, USA

Salient features: Expert national and USC faculty will provide a comprehensive “nuts & bolts” technical review with live demonstration and video presentations to include:

- Radical cystectomy in male and female.
- Nerve-sparing and female organ sparing techniques.
- Extended pelvic lymph node dissection (up to inferior mesenteric artery).
- All 3 types of urinary diversions: ileal conduit, orthotopic neobladder, continent cutaneous diversion.
- Cutting-edge robotic technology including XI system, robotic stapling device and robotic vessel sealer.
- “Hands-on” animal lab for intracorporeal bowel anastomosis
- Complications of cystectomy and diversion

USC Faculty
Inderbir Gill, MD
Monish Aron, MD
Mihir Desai, MD
René Sotelo, MD
Hooman Djaladat, MD
Andre Berger, MD
Andrew Hung, MD
Mike Nguyen, MD
