\* Each PGY3 resident gets one week of vacation every three months.

\*\* PGY3 residents now rotate two additional months at Site 2 rather than Site 1. One month is spent learning sleep surgery to take advantage of having a dedicated sleep surgeon at Site 2. Sleep medicine is a core portion of our specialty board examination. The second month is dedicated to working with faculty in the outpatient clinics at Site 2. This change was made in response to the comments in the Self-Study.
