THE USC/UKRO KIDNEY RESEARCH CENTER

Led by Director Kenneth R. Hallows, M.D., Ph.D., F.A.S.N., the USC/UKRO Kidney Research Center (KRC) occupies two floors in the Mudd Building on USC's Health Sciences Campus, a major medical hub with multiple labs working in a variety of disciplines. The KRC's growing team of clinicians and scientists seeks to answer the most challenging questions about the kidney and kidney diseases. Research focus at the center includes kidney regeneration and stem cell therapies, polycystic kidney disease, hypertension, acid regulation, acute kidney injury, therapies to protect living kidney donors, and health policy and economics pertaining to kidney diseases.
