

Holly A Muir, MD

Introduction

Vladimir Zelman, Md, PHD Professor and Chair
Department of Anesthesiology
Keck School Of Medicine of USC
1450 San Pablo Street Suite 3600
Los Angeles, CA
USA

Dr. Holly Muir earned her medical doctorate from Dalhousie University in Halifax, Nova Scotia, where she also completed her residency training in anesthesia. Following her residency, she matriculated to University of Pennsylvania to pursue a fellowship in obstetric anesthesia and then returned to Halifax where she served on the faculty at Dalhousie. There, she served as the residency program director, the provincial QI director for anesthesia and the chief of the obstetrics service for the IWK Hospital. She was recruited to the Duke University School of Medicine in 1998 to serve as chief of the Division of Women's Anesthesia. In 2003, she was invited to serve as the vice chair of clinical operations and medical director of perioperative services.

Since January 2017, Dr. Muir has been Chair of the Department of Anesthesiology at the Keck School of Medicine of USC.

Carolyn C. Meltzer, MD

Introduction

Dean, Keck School of Medicine of USC
May S. and John H. Hooval Dean's Chair in Medicine
Professor of Radiology
Los Angeles, CA
USA

On March 1, 2022, Carolyn Meltzer, MD, began her appointment as the Dean of the Keck School of Medicine of USC and the John and May Hooval Dean's Chair in Medicine. Dr. Meltzer was recruited from Emory University, where for the past 15 years she served as the William P. Timmie Professor and Chair in the Department of Radiology and Imaging Sciences. At the Emory School of Medicine, she also served as Executive Associate Dean of Faculty Academic Advancement, Leadership, and Inclusion, and as Chief Diversity and Inclusion Officer.

Prior to her appointment at Emory University, Meltzer served on the faculty of the University of Pittsburgh School of Medicine. She earned her medical degree from the Johns Hopkins University School of Medicine and completed her graduate medical education at The Johns Hopkins Hospital in Baltimore. Meltzer holds an undergraduate degree in biology and neurobiology with honors from Cornell University. She is an expert in neuroradiology and nuclear medicine and has conducted research to understand the brain's structure and function during normal aging, dementia, Alzheimer's disease, and psychiatric disorders in later life. In addition, she specializes in cancer imaging and has subspecialty certification in neuroradiology with advanced training in PET imaging.

Federico Bilotta, MD, PhD

Guidelines: Why and How to

Professor of Anesthesiology,
Department of Anesthesiology, Critical Care Medicine,
Policlinico, Umberto I, Sapienza University of Rome,
Rome, Italy

Dr. Federico Bilotta works at the Neuroanesthesia and Neurocritical Care department of the Policlinico Umberto I, Sapienza University of Rome, Italy. He graduated in 1990 from the Sapienza University, there he also completed a residency in cardiology and anesthesiology, a PhD in cardiovascular and respiratory physiology and a BSc in biomedical engineering. His clinical and research experience began in the setting of cardiac surgery, and over the last 20 years has moved into neuroanesthesiology and neurocritical care. In 2008 Dr. Bilotta was appointed as Professor of Clinical Anesthesiology at the Albert Einstein University, Montefiore Medical Center in New York, USA, and he has worked with various universities in the USA and Europe, including: the Southern California University in Los Angeles, USA, the Ohio State Medical University in Columbus, USA, Massachusetts Medical University, USA, and Yale University, USA, the University of Valencia in Spain, the University of Cambridge in the UK, Thessaloniki in Greece, Beer Sheva in Israel and Amsterdam University in the Netherlands. Dr. Bilotta actively participates in several international societies including the American Society of Echocardiography and the Society of Neurosciences in Anesthesia and Neurocritical care (SNACC), the European Society of Anesthesiology (ESA), and has acted as Chair of the subcommittee of Neuroanesthesiology, and of the research committee. He also serves as a member of the editorial board and reviewer for several, anesthesia, critical care, pharmacology, cardiology and echocardiography journals.

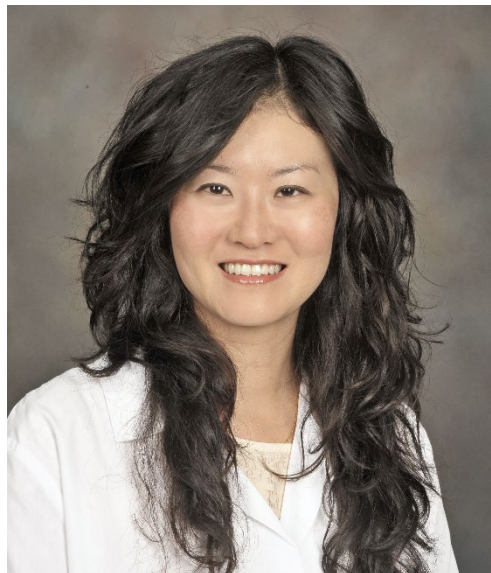

Jody Cimbalo Leng, MD, MS

Anesthesiologists' Wellness in the US: What Can We Do To Help

Clinical Associate Professor of Anesthesiology (Affiliated)
Director of Regional Anesthesiology and Acute Pain
Medicine, VA Palo Alto
Program Director of Regional Anesthesiology and Acute
Pain Medicine Fellowship
Stanford Hospital and Clinics
USA

Dr. Leng is a Clinical Associate Professor of Anesthesiology. Prior to her medical career, she worked as an R&D engineer at a biomedical device startup in Silicon Valley. She currently serves as the Director of Regional Anesthesiology and Acute Pain Medicine at the VA in Palo Alto, the Program Director of the Stanford RAAPM fellowship, and the Co-Director of the Peer Support and Resiliency in Medicine (PRIME) wellness program at Stanford. She has served as a well-being faculty facilitator for residents at Stanford since 2016.

Connie Chung, MD

Entering a New Era of PONV Management

Assistant Professor of Clinical Anesthesiology
Medical Director, Outpatient Surgical Center
Keck School of Medicine
University of Southern California
Los Angeles, CA
USA

Dr. Connie Chung is Assistant Professor of Clinical Anesthesiology and the Medical Director of the Outpatient Surgical Center at Keck Medical Center of USC. Her academic focus is patient safety and quality improvement in ambulatory anesthesia.

Dr. Chung graduated from Yale University School of Medicine and completed both residency training in anesthesiology and fellowship training in regional anesthesiology at Columbia University Irving Medical Center, where she remained as faculty in the Department of Anesthesiology. She subsequently joined the faculty at USC Keck School of Medicine and serves on the Joint OR Subcommittee for Outpatient Sites, as well as the Pharmacy & Therapeutics and Patient Blood Management & Transfusion committees.

Tiberiu Ezri, MD

Are Patients with Coronary Stents Suitable for Anesthesia & Surgery in Free-Standing Ambulatory Surgery Centers?

Clinical Associate Professor (Emeritus)
Sackler Medical School
Tel Aviv University
Senior Anesthesiologist
Day Surgery Unit Kaplan Medical Center
Israel

1976 - Graduated from Timisoara Medical School, Romania. 1978 – Emigration to Israel 1983 – Board certification in anesthesia – Kaplan Medical Center, Israel 1989 – Deputy head of the department of anesthesia, KMC. 1991 – Head of PACU, KMC. 1993 – 2004 – Worked for a total of 24 months at the UT Medical School at Houston as Visiting Assistant Professor. 2000-2018 – Head, Department of Anesthesia, Wolfson Medical Center, affiliated to Tel Aviv University. Former member of the Israel Society of Anesthesiologists' central committee. Former Chair of the triennial Israeli Society of Anesthesiologists' International Congress. Former Chair of the Israeli Board in Anesthesia. Since 2008 – Clinical Associate professor of Anesthesia, Tel Aviv University Medical School – Today Emeritus. 2016 – World Congress of Anesthesia, Hong Kong - Recipient of WFSA Presidential distinction for teaching foreign fellows at Kaplan Medical School & in the "Save a Child's Heart" philanthropic project. Since my retirement in 2018 as head of anesthesia, I work as a senior anesthesiologist at the Day Surgery Unit, Kaplan Medical Center. Actively participated or organized tens of national and international workshops and conferences. Over 200 publications in PubMed.

Justin Sangwook Ko, MD, PhD

Implementing the Anesthesiologist's Work Hours/Month as an Important Parameter in Anesthesia Quality Evaluation in Korea

Director of Scientific Affairs Korean Society of Anesthesiologists
Professor
Sungkyunkwan University School of Medicine
Samsung Medical Center
Seoul, Korea

Dr. Ko is a Professor at the Sungkyunkwan University School of Medicine, Samsung Medical Center, Department of Anesthesiology & Pain Medicine in Seoul, Korea. He is currently the Director of Scientific Affairs Committee of the Korean Society of Anesthesiologists (KSA), the Vice-President of the Korean Society of Regional Anesthesia (KSRA), the Vice-President of Korean Society of Geriatric Anesthesia & Pain Medicine (KSGAPM), the Director of International Affairs of the Korean Society of Transplantation Anesthesiologists (KSTA), and the Director of Scientific Affairs of the Korean Patient Blood Management (KPBM).

He has specialized knowledge in liver transplant anesthesia and regional anesthesia. He has conducted clinical trials and basic research and published over 100 peer-reviewed articles. He is clinically active in the operating room, where he teaches and mentors students and residents of anesthesiology.

Yuri Kuchin, MD, PhD

Medical Education in War-time: Overcoming Challenges and Growing Up a New Generation of Anesthesiologists

Doctor of Medical Sciences, Professor

President of Bogomolets National Medical University

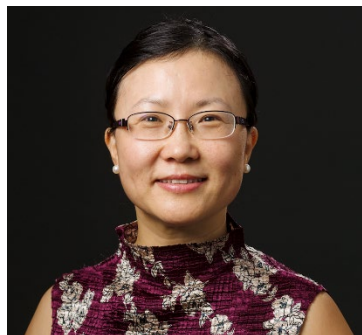

Kyiv, Ukraine

Corresponding member of National Academy of Medical Sciences of Ukraine

Master of Public Administration

Expert in Anesthesiology and Intensive Care in the Ministry of Health of Ukraine and the Kyiv City Public Health Department

Prof. Yuriy Kuchyn is the President of Bogomolets National Medical University since 2018. Since 2002 he has been working in different fields of Anesthesiology and Intensive Care as well as topics of invasive diagnostic and therapeutic procedures, multiple trauma, acute and chronic pain management, regional anesthesia, respiratory intensive care and various aspects of medical education and clinical research. For years he has been teaching in Bogomolets National Medical University, and have got administrative experience, as a founder and first director of Institute for Postgraduate Education in the University in 2015 In 2016 he launched European Society of Anesthesiology and Intensive Care School of Anesthesiology as a director of the Kyiv regional center.

Jinlei Li, MD, PhD, FASA

The Role of the aAnesthesiologist in the Migration to Outpatient Surgery: a TJA Perspective

Associate Professor
Program Director of Regional Anesthesia and Acute Pain

Medicine Fellowship

Director of Clinical Scientist Track Program of
Anesthesiology Residency, Department of
Anesthesiology Yale University School of Medicine
Director of Regional Anesthesia and Acute Pain Medicine
Service, Yale New Haven Health
USA

Dr. Jinlei Li is the Director of Regional Anesthesiology and Acute Pain Medicine at Yale University. She is active in academic anesthesia both in research and education, currently serving as the vice Chair of Regional Anesthesia and Acute Pain Medicine Committee at ASA.

Dr. Li has special interest in the care of orthopedic patients and especially in how best to treat patients presenting with total knee and total hip replacement with particular attention to opioid-sparing regional anesthesia/acute pain management. She has recently completed a single center RCT as the PI, assessing pain management and surgical outcomes using motor-sparing anterior quadratus lumborum blocks in THA. She is currently running an RCT study in unilateral and bilateral total knee arthroplasty assessing both pain control and surgical outcomes.

Dr. Li has been invited to present her expertise in acute pain management, particularly ambulatory TJA at ASA, ASRA and PGA. She has been interviewed multiple times by Ambulatory Surgery magazine and have hosted numerous webinars, panels and workshops on regional anesthesia techniques, and patient outcome based on her research and clinical protocols.

Arash Motamed, MD

OR Introduction to Sustainability in Healthcare

Associate Professor of Clinical Anesthesiology
Medical Director of Keck Main Perioperative Operations
Medical Director of Sustainability, Keck Medicine of USC
Vice Chair of Anesthesiology, Clinical Operations
Los Angeles, CA
USA

Dr. Arash Motamed is Associate Professor of Clinical Anesthesiology and is the Vice Chair of Clinical Operations for the Department of Anesthesiology at Keck School of Medicine. Additionally, he serves as the Medical Director of Sustainability for Keck Medicine of USC and is the Medical Director of Keck Main Operating Rooms.

Dr. Motamed's clinical and academic focus lies with complex Hepatobiliary and Liver Transplant Anesthesiology and perioperative neurocognitive disorder.

Dr. Motamed is a graduate of University of Southern California, where he completed his undergraduate, Master in Business Administration, and Medical Doctorate degrees. Following graduate school, he joined the LAC+USC anesthesiology residency program and subsequently became a member of Keck School of Medicine anesthesiology faculty. He is the chair of Bi-campus Integrated Patient Safety Committee (IPSC) at Keck and is active member of Medical Executive Committee, Culture of Safety Executive Committee, and Value-Based Service Organization (VBSO) Executive Committee along with Sustainability, Resuscitation, Mortality Case Review, Patient Blood Management, Transfusion, Robotics, Value Assessment, and OR Committees/Subcommittees. He is district delegate for California Society of Anesthesiologists and member of American Society of Anesthesiologists. He is a past member of Keck School of Medicine Faculty Council and USC Academic Senate.

Beverly K Philip, MD, FACA, FASA

Ambulatory Surgery as Health Policy – Worldwide Update

Immediate Past President, American Society of Anesthesiologists
Immediate Past President, International Association for Ambulatory Surgery
Professor of Anaesthesia
Harvard Medical School
Founding Director, Day Surgery Unit
Brigham and Women's Hospital
Department of Anesthesiology, Perioperative and Pain Medicine
Boston, MA
USA

Beverly Khnie Philip, M.D. is Professor of Anaesthesia at Harvard University and Founding Director of the Day Surgery Unit at the Brigham and Women's Hospital in Boston, MA, USA. She received her undergraduate degree from Queens College, City University of New York, New York, the MD degree from Upstate Medical Center, State University of New York, Syracuse, NY, and completed the anesthesia residency and research fellowship at the Peter Bent Brigham Hospital, Harvard Medical School, Boston, MA.

Dr. Philip's subspecialty focus is ambulatory anesthesia. Dr. Philip has published numerous research papers, review articles and book chapters on various aspects of ambulatory anesthesia science and practice, and she has spoken widely, nationally and internationally.

Dr. Philip was the 2021 President of the American Society of Anesthesiologists (ASA), the professional society of over 54,000 US and international anesthesiologists. She recently served as ASA's Vice President for Scientific Affairs, with responsibility for all educational and scientific activities of the organization. Dr. Philip also has a strong interest and ongoing contribution to national anesthesiology policy, particularly related to quality and regulatory issues. Her service in ASA included the ASA Board of Directors representing Massachusetts, Chair of the ASA Quality Management and Departmental Administration Committee, Chair of the ASA Ambulatory Surgical Care Committee, and she was Chair of the ASA Annual Meeting for 2009. Dr. Philip is a founding member and Past President of the Society for Ambulatory Anesthesia (SAMBA), a national organization that promotes scientific progress in the subspecialty of ambulatory anesthesia. She has served as the Chair of the Joint Commission's Ambulatory Health Care Professional and Technical Advisory Committee, and on the Board of Directors and Standards

**2nd INTERNATIONAL SYMPOSIUM OF ANESTHESIOLOGISTS, RESEARCHERS AND EDUCATORS ON
INNOVATIONS IN ANESTHESIOLOGY**

V. Zelman Center of Distance & International Education, Learning, and Science

Saturday, May 20, 2023 | 8:00AM – 11:30AM, PST

Committee of the Accreditation Association for Ambulatory Health Care. Dr. Philip was a founding participant of the CMS Advisory Panel on Ambulatory Payment Classification Groups, and served 2 three-year terms. Dr. Philip is Immediate Past President of the International Association for Ambulatory Surgery (IAAS), and is the past Editor-in-Chief of the international journal "Ambulatory Surgery". She presented the Nicoll Lecture to the IAAS and the Frontiers Lecture to SAMBA. Dr. Philip has received the SAMBA Distinguished Service Award and her medical school's 2018 Distinguished Alumna Award.

Armen Varosyan, MD, DEAA, PhD

ChatGPT as a New Tool for Anesthesia Education: Is It Already Ready?

President of Armenian Society of Anesthesiologists and Intensive Care Specialists
Associate Professor of Yerevan State Medical University (YSMU)
Erebouni Medical Center
Yerevan, Armenia

Dr. Armen Varosyan has 34 years of experience in practical anesthesiology and intensive care, over 20 years of experience in academic anesthesiology and anesthesia education. Main scientific interests are development of information management systems in anesthesiology and intensive care, computer technologies in anesthesia education and assessment, regional anesthesia. Has 72 scientific publications in total including 11 research and 8 review articles, 48 abstracts, 5 books and manuals. Regularly lectures both nationally and internationally at different congresses and conferences, particularly at Euroanaesthesia congresses.

- *Current positions:*
- *President of Armenian Society of Anaesthesiologists and Intensive Care Specialists, since 2017*
- *Associate Professor, Director of Postgraduate Training Program, Department of Anesthesiology and Intensive Care of Yerevan State Medical University, since 2002*
- *Staff anesthesiologist, Erebouni Medical Centre, Yerevan, Armenia, since 2001*
- *European Society of Anaesthesiology and Intensive Care (ESAIC) eLearning Committee member, since 2023*
- *European Society of Anaesthesiology and Intensive Care (ESAIC) Examination Committee member, On-Line Assessment (OLA) Subcommittee Chairperson, 2016-2022*
- *Examiner for European Diploma in Anaesthesiology and Intensive Care (EDAIC), since 2003*
- *ESAIC Accreditation of Training in Anaesthesiology and Intensive Care (ATAIC) visitor, since 2014*

Amy E. Vinson, MD, FAAP

Creating a Culture of Well-being

Assistant Professor of Anaesthesia,
Harvard Medical School
Senior Associate in Perioperative Anesthesia,
Boston Children’s Hospital
Associate Clinical Director, Waltham Hospitalist
Program
Chair, ASA Committee on Physician Well-Being
Chief Wellness Officer, Department of
Anesthesiology, Critical Care & Pain Medicine
[@ImSwimming3](#)

Amy Vinson is a Pediatrician and Pediatric Anesthesiologist at Boston Children’s Hospital and an Assistant Professor of Anesthesia at Harvard Medical School. She attended college and medical school in Georgia before coming to New England where she completed a residency in pediatrics at Brown, an anesthesiology residency at BIDMC and Pediatric Anesthesiology fellowship at Boston Children’s Hospital. She has a long-standing interest in well-being, burnout, peer support, and substance use disorder in anesthesiologists and has lectured widely on these subjects. She currently serves as the Chair of the ASA’s Committee on Physician Well-being, is the ASA representative to the National Academy of Medicine’s Clinician Action Collaborative on Clinician Well-being and Resilience and is the Chief Wellness Officer for own department. Her research on Burnout in Anesthesiologists - the largest such study of anesthesiologists to date, was recently published in Anesthesiology and she has numerous other publications and research manuscripts on subjects related to overall physician well-being. She is a self-described “well-being pragmatist” focusing on systemic and organizational factors impacting well-being and burnout. On her off time, she enjoys time with family, fitness, playing music and home improvement.

Mathew Arthur Zapf, MD

Translating Machine Learning into Clinical Workflows: Considerations in Designing Real Time Applications

Assistant Professor of Anesthesiology
VUMC Department of Anesthesiology
Research Informatics Division
Director - Center for Evidence Based Anesthesia,
Adult Anesthesiology
Nashville, TN
USA

Dr. Zapf is a Board Certified Anesthesiologist and Assistant Professor in Anesthesiology and Research Informatics at Vanderbilt University Medical Center. My research primarily focuses on developing machine learning tools for clinical use in the perioperative setting. As part of my current T32 Institutional Training Grant, I have worked on predicting intraoperative transfusion from preoperative variables to guide type and screen ordering.
